ABUBAKAR Z.

Lead SEO & Organic Growth Strategist | B2B Lead Specialist

+92 300 4288996 • abubakar.careers@gmail.com • LinkedIn • Portfolio: Abubakar Z.

PROFESSIONAL SUMMARY

Results-driven Organic Growth Strategist and B2B Lead Specialist with 3+ years of hands-on experience scaling website traffic, generating qualified enterprise pipelines, and architecting automated marketing workflows. Proven ability to unlock 30%–50% organic search traffic growth within 90–120 days through technical SEO audits, topical content siloing, and schema architecture, consistently securing top-3 Google SERP rankings for high-intent commercial queries. Highly adept at building deliverability-shielded outbound B2B engines via Apollo.io and LinkedIn Sales Navigator that deliver 15–25 qualified sales discovery meetings monthly within 45–60 days of launch, while keeping email bounce rates below 2%. Combines full-funnel marketing execution with technical depth by developing custom headless Python automation bots and LLM intelligence pipelines that eliminate manual operational bottlenecks and multiply marketing velocity by 4x.

TOOLS & TECHNOLOGIES

- **SEO & Search Intelligence:** Ahrefs, SEMrush, Google Search Console (GSC), Google Analytics 4 (GA4), Screaming Frog SEO Spider, Google Trends.
- **B2B Lead Gen & Sales Prospecting:** Apollo.io, LinkedIn Sales Navigator, SalesQL, Hunter.io, ZoomInfo.
- **Email Deliverability & Verification (Anti-Bounce):** ZeroBounce, NeverBounce, Instantly.ai.
- **AI, LLMs & Growth Automation:** Antigravity (Agentic AI Workflows), OpenAI (ChatGPT), Anthropic (Claude), Google Gemini, Grok, Python (Headless Playwright/Selenium/Chromium).
- **CMS, CRM & Team Collaboration:** WordPress (Enterprise Catalogue & Taxonomies), Slack, Notion, Google Workspace.

CMS & Web Operations: Enterprise WordPress Catalogue Management, Custom Taxonomies, Product Interlinking Architecture, FAQ Rich Snippets, Growth SOPs, Team Coaching & KPI Tracking.

PROFESSIONAL EXPERIENCE

Team Lead — Keenly Digital **Jan 2025 – Present**

- Spearheaded organic growth campaigns for enterprise certification brands (Cert Empire, Cert Mage), delivering a +40% surge in organic traffic within the first 90–120 days via targeted competitor gap analysis and topical content siloing.
- Captured and secured top-3 Google SERP positions for 25+ high-competition commercial queries by implementing rich snippet schema and optimizing on-page search intent.
- Architected a Quora Brand Authority system that elevated organic reach by 90% in under 60 days, driving a consistent, predictable stream of high-converting referral buyers.
- Overhauled WordPress catalogue architecture, establishing structured taxonomies and internal link silos that reduced indexing delays and maximized search crawl budget.

Business Development Executive — Employ Scout **Oct 2024 – Jan 2025**

- Curated hyper-targeted ICP databases using LinkedIn Sales Navigator, Apollo.io, and SalesQL; authored personalized multi-touch cold email cadences that shortened sales cycle velocity.
- Structured CRM deal stages and qualification criteria, accelerating response-to-meeting conversion rates by 25%.

Lead Generation Specialist — East Hire **Nov 2023 – Nov 2024**

- Executed outbound multi-channel prospecting campaigns for enterprise decision-makers, driving a 30%–40% overall lift in qualified lead volume within 60 days.
- Restructured domain authentication and sanitization workflows, slashing email bounce rates from >10% down to under 3% within 2 weeks of implementation.
- Designed iterative A/B test cadences across email subject lines and value hooks, consistently doubling positive reply rates and boosting deliverability.

Receptionist & Front Desk Coordinator — Al-Ehsan Welfare Eye Hospital **Apr 2023 – Nov 2023**

- Coordinated daily patient check-in workflows and consultant schedules, eliminating wait-time friction for 150+ daily visitors with 98%+ on-time accuracy.
- Maintained compassionate patient communication and conflict de-escalation, achieving consistent positive feedback and flawless log auditing.

KEY PROJECTS & GROWTH AUTOMATION

Cloudflare-Bypass Quora Automation Bot — Python & Headless Automation

- Engineered a multi-profile headless browser bot with humanized delay logic and voting automation that bypasses Cloudflare protections at zero API cost, increasing daily outreach reach by 3x without platform restrictions.

Snake Battle Royale – Real-Time Multiplayer Web Game — gameabubakar.netlify.app (Live on Netlify)

- Developed and deployed a low-latency multiplayer web game using HTML5 Canvas, JavaScript, and Ably Realtime WebSockets, handling real-time state synchronization for multi-device concurrent play.

Autonomous AI Marketing & Intelligence Pipeline — LLM Architecture

- Architected an automated LLM pipeline for competitor intelligence and SERP content brief generation, reducing manual research time by 75% and accelerating publishing turnaround from 3 days to under 4 hours.

Enterprise WordPress Catalogue Architecture — CMS & Technical Content Ops

- Re-engineered 100+ enterprise e-commerce product pages and integrated structured FAQ schema, driving noticeable rich snippet impressions and higher CTR within 30 days of re-crawl.

EDUCATION & CREDENTIALS

BS in Computer Science (BSCS) — Virtual University of Pakistan (VU) **Oct 2023 – Present (In Progress)**

Intermediate in Computer Science (ICS) — Superior College **Aug 2021 – Sep 2023**
