Lahore, Pakistan • +92 300 4288996 • abubakar.careers@gmail.com • linkedin.com/in/abubakar-z-6173a5324 • Portfolio

PROFESSIONAL SUMMARY

Results-driven **Digital Marketing Executive and Organic Growth Strategist** with 2+ years of experience scaling search visibility, generating verified B2B leads, and engineering automated technical workflows. Proven track record of accelerating organic search traffic by **+40%** and securing top-3 Google rankings for competitive keywords. Demonstrated expertise in technical SEO audits, keyword gap mapping, schema architecture, high-authority Quora community marketing (+80% reach), and outbound prospecting via Apollo.io and LinkedIn Sales Navigator (slashing bounce rates by 60–70%). Technical proficiency in Python headless automation, WebSockets web applications, and LLM prompt engineering (Claude, GPT-4, Gemini).

CORE COMPETENCIES & TECHNICAL SKILLS

SEO & Organic Growth: Technical SEO Audits, Competitor Keyword Gap Analysis, On-Page & Schema Markup, Core Web Vitals, AEO (Answer Engine Optimization), Topical Siloing, CTR Optimization, Google Analytics 4 (GA4), Search Console, Ahrefs, SEMrush.

B2B Lead Generation & Outreach: ICP Prospecting, LinkedIn Sales Navigator, Apollo.io, SalesQL, Multi-Touch Cold Sequences, A/B Testing, Email Deliverability Optimization & Verification (Spam Shielding), CRM Pipeline Management.

Software Engineering & Automation: Python Headless Scripting, Cloudflare Bypass, Real-Time WebSockets (Ably), HTML5 Canvas, JavaScript, Prompt Engineering (Claude 3.7/3.5, GPT-4, Gemini), SERP Intelligence Pipelines.

CMS & Web Operations: Enterprise WordPress Catalogue Management, Custom Taxonomies, Product Interlinking Architecture, FAQ Rich Snippets, HTML/CSS Basics, Growth SOPs, Team Coaching & KPI Tracking.

PROFESSIONAL EXPERIENCE

Digital Marketing Executive — Keenly Digital — Jan 2025 – Present | Lahore, Pakistan

- Spearheaded organic growth campaigns for enterprise certification brands (**Cert Empire**, **Cert Mage**) via competitor keyword research, in-depth technical audits, and topical content siloing, driving a **+40% organic traffic surge**.
- Achieved top-3 Google SERP positions for 25+ high-competition commercial queries and implemented rich snippet schema markup.
- Architected and scaled a **Quora Marketing & Brand Authority** initiative, elevating brand reach and engagement by **80%** while capturing steady, high-converting referral purchasers.
- Managed WordPress catalogue operations, standardizing taxonomies, URL architecture, and internal link silos to maximize crawl efficiency.

Business Development Executive — Employ Scout — Oct 2024 – Jan 2025 | Lahore, Pakistan

- Engineered targeted B2B lead pipelines targeting US and international IT & staffing clients using **LinkedIn Sales Navigator, Apollo.io, and SalesQL**.
- Curated hyper-segmented ICP prospect databases, executed multi-touch cold email cadences, and streamlined CRM pipeline stages, driving faster contract closures.

Lead Generation Specialist — East Hire — Nov 2023 – Nov 2024 | Lahore, Pakistan

- Delivered multi-channel outbound prospecting campaigns targeting enterprise decision-makers, driving a **30%–40% overall performance lift**.
- Sanitized and enriched prospect databases; slashed email bounce rates by **60%–70%** through strict deliverability and authentication protocols.
- Designed and executed A/B testing across email subject lines, messaging angles, and CTAs, consistently doubling positive response rates.

KEY PROJECTS & TECHNICAL ENGINEERING

Snake Battle Royale – Real-Time Multiplayer Web Game — gameabubakar.netlify.app — Live on Netlify

- Architected and deployed a real-time multiplayer browser game using **HTML5 Canvas, JavaScript, and Ably Realtime WebSockets**, enabling synchronized low-latency gameplay for 2–3+ players simultaneously across separate devices.

Cloudflare-Bypass Quora Automation Bot — Python & Headless Automation — 2024

- Engineered a custom multi-profile headless bot simulating human interactions (random delays, voting) that bypasses Cloudflare security at **zero API cost**, dramatically scaling marketing reach without account blocks.

Autonomous AI Marketing Engine — Claude, GPT-4, Gemini — 2024 – Present

- Developed prompt engineering frameworks and LLM pipelines to automate competitor intelligence, content brief creation, and prospect enrichment, achieving **4x faster production cycles** with elevated output quality.

EDUCATION & CREDENTIALS

BS in Computer Science (BSCS) — Virtual University of Pakistan (VU) — Oct 2023 – Present (In Progress)
